

How It Works

There are just 3 simple steps you need to do to take back control of your credit future. Our system methodically walks you through each of these steps and provides the tools to accomplish them.

Step 1 – Order your credit reports.

After signing up, you will begin by entering your account information off your credit reports from the three major credit bureaus. If you do not have your reports, we can help you purchase one instantly. With each cycle, you should receive updated reports from the bureaus. It is important to check each updated report to track which questionable items were deleted.

Step 2 - Choose which items to question.

Once the information from your credit reports are entered, you then choose how to challenge your questionable listings. Sound complicated? Not to worry, our easy-to-use "Priority Report" makes this step a simple matter of seeing which items rank highest.

4 Priority Report

The information in this section is what you put into the system from your credit reports; however a priority rating has been calculated for each item you've entered. The higher the number the more priority you should give to resolve the item. The display shows the priority rating items according to credit agency.

Step 3 - Take action.

This is where our application helps you create a challenge, dispute, settlement letter or statute of limitations letter for any negative item. Once entered by you, our system will generate a letter for you to send to each of the three major credit bureaus.

6 Action Scheduler

This section provides you with the ability to create a challenge, dispute, settlement or a statute of limitations investigation letter for any negative item. As you enter the scheduled item, a letter will be generated and e-mailed to you. You also have the option to schedule exactly when you want this letter created - end of business today, end of the week or the end of the month. The system will automatically schedule and e-mail the requested letter to you on the specified date.
